### Three months' year-on-year change in turnover of construction (TOL 2008)

Source: Statistics Finland

Turnover continued to grow in all construction industries. The growth was strongest in building construction, where 14.7 per cent more turnover was accumulated in April to June than one year earlier. The turnover of specialised construction activities increased by 12.0 per cent and that of civil engineering by 7.3 per cent.

In April to June, the **sales volume** of construction enterprises grew most in building construction, by 11.5 per cent. In civil engineering, the sales volume grew by 10.6 per cent and in specialised construction by 8.8 per cent.

The volume index of enterprises' sales is calculated by removing the effect of price changes from the turnover index series.
